Testimonials

"My dispatcher told me it makes her job easier...she actually smiles at times now!"

Amy Z. – Order Taker

"During the recession we had to down-size by a dispatcher and 3 order takers. Since switching to WIMP, we've gotten back to our pre-recession volume, however I didn't need to hire a single dispatcher or order taker. The savings went directly to our bottom line."

Susan M. – Owner

About Us

Company - Incorporated in 1999, Schewanick Computer Services (SCS) was founded for the purpose of providing software and technical consulting services to the Transportation Industry (Courier/Messenger, Para transit/NEMT, Air Courier, Freight-Forwarder, Long Haul & LTL Trucking, Demurrage, Inter-modal Freight Transport). We are a highly-motivated group of professionals dedicated to providing solutions for our clients and...

"Bringing Service Back to Technology."

Chronology - Founder Keith Schewanick has been a programmer and technical consultant for the Transportation

Industry since 1989, providing outstanding products and services for 23+ years.

With over 300 clients across the United States and Canada, he established and maintains innumerable long-term relationships in this industry.

After many inquiries as to when he was going to write his own Content Management System for the transportation industry, he began working on a concept in 2002.

Development of **"Where Is My Package?"™** software soon followed in 2003, which would incorporate client's specific needs for transportation software. Tailor-made programs were written and a

truly complete software-as-a-service system was ready.

Next, SCS was proud to open our beautiful offices in Los Angeles.

The Future - We're excited to help businesses thrive and grow, and look forward to what the future holds for WIMP and *your* business.

Our Promise

At SCS, we pride ourselves in *individualized* customer service, dedicated to meet the needs of each and every customer. We offer custom solutions, tailored for your ever-changing business needs. We work with you to provide prompt, consistent service and products. And to provide:

Simply, Better TRACKING...

Whether it's a legal summons, pallet, shipping container, human assets or even a transplant organ, rest assured you won't have to hear those dreaded words ever again:
